Wang, H. *, Cheng, Y. *, van Gool, P., & Zhang, Z. (Revise & Resubmit).

Navigating Diversity: The Role of Network Crafting in Resource Enrichment Across Work and Home.

Career Development International.

* Co-first authors

RESEARCH EXPERIENCE

The Chinese University of Hong Kong

Shenzhen, China

Research Assistant (Organizational Behaviour)

Jan 2026 – Present

- Supervisor: Prof. Xuan LIU
- Identified and evaluated psychological scales, including construct validation and adaptation for bilingual contexts.
- Cleaned and structured large-scale labor market data (Revelio dataset), including variable construction and merging across sources.
- Designed and refined bilingual (Chinese/English) Qualtrics surveys, including item wording and survey flow.
- Screened and synthesized literature on AI and job search / career behavior to support theory development.

The Chinese University of Hong Kong

Hong Kong

Research Assistant (Industrial and Organizational Psychology)

Jun 2024 – Aug 2024

- Supervisor: Prof. Julian Pfrombeck
- Designed and distributed bilingual surveys to 200+ older adults in Hong Kong using community-based sampling.
- Supported a four-wave longitudinal study, including participant tracking and data quality checks.
- Conducted preliminary data cleaning and descriptive analyses to prepare datasets for hypothesis testing.
- Assisted in literature review and early-stage theory development on digital adaptation and aging.

RESEARCH PROJECTS & CONFERENCE PRESENTATIONS

Lingnan University

Hong Kong

Undergraduate Thesis

Jan 2025 – May 2025

- **Project:** From Awareness to Action: Positive AI Awareness in Shaping Occupational Opportunities
- Investigated the psychological impact of AI by designing and distributing surveys to assess AI awareness, perceived career opportunities, and job crafting behaviors among undergraduate and early-career cohorts.
- Applied regression-based statistical analyses to examine how positive AI awareness predicts career adaptability and psychological well-being in the modern workforce.

The University of Hong Kong

Hong Kong

Capstone Project

Sep 2025 – Present

- Conducting an interdisciplinary capstone project on AI governance, responsibility gaps, and human-AI interaction in organizational and media contexts.
- Examining institutional accountability and ethical implications of AI-assisted decision-making through legal, organizational, and psychological perspectives.
- Integrating policy analysis and empirical literature to develop governance-oriented frameworks for responsible AI implementation.

Chinese Association of Social Psychology

China

Conference Presentation (First Author)

Jun 2024 – Jul 2024

- **Presentation:** Enhancing Creativity in Diverse Workgroups: The Role of Network Crafting
- Presented empirical findings on how network crafting facilitates creativity in diverse teams to an audience of scholars and practitioners.
- Engaged in academic discussions with senior scholars regarding the study's methodological design and theoretical implications.

PROFESSIONAL EXPERIENCE

FaceMarket

Researcher

Hong Kong
Jun 2026 – Present

- Conduct research on face identity, likeness rights, digital assets, and AI-generated actor markets to support product and compliance strategy.
- Analyze emerging use cases involving synthetic media, digital replicas, virtual performers, and commercialized face or voice assets.
- Review platform risks related to consent, provenance, identity misuse, deepfake abuse, and secondary commercialization of digital likeness.
- Synthesize findings into English research briefs, competitor notes, and governance recommendations for synthetic media products.

Best Top Consulting Pte Ltd

AI Product Development Intern

Remote / Singapore
May 2025 – Aug 2025

- Revised AI prompt design based on a 16-dimension psychological assessment framework (BPRA), improving user completion rates by approximately 40%.
- Assisted in building AI-based assessment pipelines by integrating the SkillsFuture framework with internal models, covering 1,800+ job records.
- Worked with engineering teams to test prompt performance and iterate on system responses based on user feedback and behavioral patterns.
- Documented prompt design principles and workflow processes to support internal knowledge sharing and future model refinement.

Shenzhen Bao'an District HR Bureau, Vocational Training Center

Training Assistant

Shenzhen, China
Jun 2023 – Aug 2023

- Supported the design and delivery of five adult vocational training programs, contributing to course structure and instructional materials.
- Assisted in administering pre- and post-training evaluations and organizing feedback data for course improvement.
- Coordinated training logistics, including participant scheduling, attendance tracking, and communication with instructors.
- Summarized training outcomes and participant feedback to support internal reporting and program review.

SKILLS & INTERESTS

- **Technical:** SPSS, Mplus, Python, Qualtrics
- **Research Interests:** AI Governance, Synthetic Media, Face Identity, Digital Assets, Organizational Behavior
- **Languages:** Mandarin (Native), English (Proficient)
